

NER offers Production Carts and Off-Site Carts for moving media within or between facilities.

Production Carts

Moving media with your data center is a breeze with NER's Production Carts. Rugged with a lean profile, these carts can stand up to the abuse, fit down the narrowest of aisles and still come back for more!

Features:

- All welded cold-rolled steel construction
- Rubber bumper comes in contact with base plate, not packs, thus eliminating accidental pack or tape damage
- Smooth rolling 2-1/2" casters; two swivel, two fixed
- 880 lbs. total load rating
- Sturdy welded steel handles

Use With:

- Flex-Pak™
- Removable 20 Packs

Dimensions:

24"w x 41.5"h x 22"d

Accommodates 14 media packs*

*Actual media capacity will vary depending on media type being stored

Off-Site Carts

This rugged cart is designed for transporting media to off-site storage locations. Tapes are stored in Flex-Paks™ or Removable 20 packs. With the doors open, all tapes are visible for easy identification and barcode scanning.

Features:

- Rugged, heavy gauge steel design
- Heavy duty casters, (two swivel with brake and two fixed)
- Steel-reinforced corner bumpers
- Total load rating of 3000 lbs.
- Removable doors have foam lining and a two-point latch and lock system to protect packs and media.

Use With:

- Flex-Pak™
- Removable 20 Packs

Dimensions:

39.5"w x 56.5"h x 20"d

Accommodates 24 Flex-Paks™ or 24 Removable 20 Packs*

*Actual media capacity will vary depending on media type being stored
